My dear Colleagues

The latest round of tornadoes in your country took a devastating toll on human life and on the livelihood of many people. I understand they are the worst since 1970 and many communities were entirely destroyed. Your citizens' resilience continues to be tested.

The World Federation of Occupational Therapists sends its condolences to the American Occupational Therapy Association on any loss of occupational therapists, and to all your members who have lost family members and friends.

The Executive Management Team sends best wishes to those occupational therapists who may be involved in recovery work.

Professor E Sharon Brintnell
President
World Federation of Occupational Therapists

cc Susan Coppola, Delegate USA
